Application Form questions

Lead Contact This should be someone familiar with your organisation and able to answer questions.

<u>Position in Organisation</u> Please put the position of the lead contact, e.g., Coordinator, Fundraiser, Treasurer etc.

Question 1 This is the name of the project, not your organisation e.g., '*Computer Classes' or 'Friday Fun sessions'*.

<u>Question 2a</u> You might be requesting just a proportion of the project costs. For example, the full cost of your project 'Project X' may be \pounds 9,700 but you are asking for \pounds 1,800. Please put the *total* cost here (i.e., \pounds 9,700).

Question 2b This is the amount you are asking for from Community Project Fund, for example, £4,800. Please make sure your submitted budget has the same figure and it is clear how much you are asking for from SADC and how much you are expecting to raise from other sources (if needed).

<u>Question 2c</u> This is the total (a) minus the amount you are applying for through the community fund (b).

Question 2d Is your project dependent on securing funding from any other sources as well as Community Project Funding? For example, if your project costs a total of \pounds 9,700 and it cannot run without you raising \pounds 9,700 then you should indicate that here. For example, you might be applying for project costs for a holiday activity to this fund, but it cannot run unless you get funds from elsewhere to pay for the hire of the hall.

If you have applied for additional funding elsewhere, give details of whom you have applied to, how much and when you expect to find out if you have been successful. Note: We may check with the trusts/foundations you have named in this section. By signing the application form, you give us consent to do so.

<u>Question 3</u> We need to know here if you have any other funding applications in process for the same items/services you are detailing in this application. For example, you are applying to this fund for $\pounds1,800$ for Project X but you are also applying to 'WegiveGrants' for $\pounds1,800$ for Project X.

Please detail which other Trusts/Foundations or local authorities you have applied to, provide details of the amount requested and when you will hear if your application has been successful. Note: We may check with the trusts/foundations you have named in this section. By signing the application form, you give us consent to do so.

Question 4 This should be a brief one-line description that sums up your project. Make sure you answer all questions in this section thoroughly to demonstrate the planning that has gone into designing your project.

Question 5 Give a description of the steps you plan to take to get your project ready and when you will do each one (a time-plan) e.g., recruiting project workers, hiring a hall, finding volunteers, buying equipment, devising publicity, printing flyers, finding partner organisations, finding trainers (bullet points or a table work well here). Please ensure a start and completion date are included.

Question 6 Will your project continue after the monitoring period? If so, how will this be funded? Has anything been secured already to ensure the project can continue e.g., funding for room hire and staff costs.

Question 7 Give a description and examples of any previous experience your organisation has in running activities/projects like the one you have described in your application. Please provide examples of any pilot projects or similar projects that have been carried out.

Question 8a In this section you need to demonstrate evidence of need, for example:

- Are you unique in the area? If you aren't, what is special about your group, its services and members?
- Local statistics or research that supports the need for your type of service. (Make use of the St Albans City and District Council Community Profiles and Ward Profiles.)
- Numbers of people on your waiting list.
- Number of referrals you receive per week/month.
- Questionnaires to see if there is a need for your service in the area.
- Other forms of evidence that your community needs or wants your service.

Question 8b How have your service users/beneficiaries been involved in making this application? How have they shaped the proposed project? Have they helped to write the application?

Question 9a/b Be clear about who your target audience is. Where the targeted people live may differ from where you plan to hold the project or activity. E.g., you may plan to run an art group in the city centre targeted at people living in Sopwell. Please note: your project must directly benefit residents of St Albans City and District.

Question 10 How many people will benefit from your project? Please include the number of direct and indirect beneficiaries.

- Direct beneficiaries individuals participating directly in the project, e.g. number of members attending a club each week.
- Indirect beneficiaries individuals who do not directly attend the activities but who could potentially benefit from them via the direct beneficiaries, e.g. parents and carers.

Question 11 If you know the profile of some of your beneficiaries it can help us understand who will be most impacted by this fund. Tick to show who will be impacted by your project. Where possible, provide details of the approximate number of the beneficiaries in each category that will benefit from your service.

Question 12 St Albans City and District Council outlines key priority areas in its Equality, Diversity and Inclusion Strategy. It is recommended that you consider these areas in the design of the project. Reference this clearly in this section when describing how your project will meet the specified criteria.

Demonstrate with examples how you meet the criteria (we appreciate your project may not fully meet all 4, but please complete as much as possible).

See examples below:

Provide support to vulnerable communities leading towards greater equality within the District.

- Reduce the isolation of 10 women for whom English is not their first language by providing access to community activities.
- Increase 20 older people's access to services by providing opportunities to develop computer skills.

Enable local people to become involved in community life.

• Support 20 young people to care for their environment by taking part in a clean-up campaign.

Encourage people from different groups to get on well together.

- Support 15 young men of Muslim faith to take part in interfaith community football tournament.
- Enable 20 young people with learning disabilities to access a local art group.

Having a say - Increase people's involvement in local decision making.

- Engage 20 young people in local democracy week events.
- Enable five beneficiaries of project to sit on group committee.

<u>Question 13</u> What will the impact of your project be? What changes will the project/ activities make to people's lives? What will they gain from being involved in the project? If applicable, please refer to volunteers as well.

Example:

Outcome 1	Reduced isolation for service users	
What will you <u>do</u> to achieve this?	Signpost people to the befriending service	
How will you measure it?	Service users will fill out a questionnaire asking them if using the service made them feel less isolated	

Question 14 List the other organisations you will work with to support your project delivery. How will you link up with them so they can support/ promote your project?

Question 15 In this section you should give details of how people will find out about your project. Do you have a plan to attract new members/clients? Are you in touch with any other organisations who will advertise your project? You should use this section to demonstrate how your publicity will reach the people you have listed in your answer to questions 9-11.

Question 16 In this section you should explain what you do to protect the people who use your service from harm (training, DBS checks etc.) and what you do if someone makes an allegation or disclosure of abuse. As part of the application process, you may be required to submit a copy of your Safeguarding Adults at Risk policy and/your Safeguarding Children Policy. If you are not sure whether you have the right Safeguarding policies and procedures in place, further information can be found:

Child Safeguarding Policy - <u>www.nspcc.org.uk/preventing-</u> <u>abuse/safeguarding/writing-a-safeguarding-policy/</u> Safeguarding Information https://knowhownonprofit.org/organisation/operations/safeguarding

As part of the application process, you may be required to submit a copy of your Equal Opportunities Policy. If you do not have one or are unsure if it is up to date, further information can be found at:

Explain here how you have considered the environment impact of your project and what you will do to minimise the impact. As part of the application process, you may be required to submit a copy of your Environmental Policy. A sample environmental policy can be found at

http://www.voluntaryactionharrow.org.uk/sample-environmental-policy-charities/, although there are many more available online.

<u>Name of authorised person</u> This is somebody who is formally authorised by the organisation to make the application and is willing to share their personal data. Please make sure the application is signed- we cannot accept unsigned applications.

Sample budget plan

This must be a separate document. It needs to list all the individual costs associated with the project and you must total the costs. Projects need to demonstrate value for money. Note: In some cases, grants may only be awarded for part of the requested amount. Please cost up your project, rather than trying to make your project fit the grant amount.

Project worker costs should be broken down, (i.e., support worker \pounds 9.50 per hour x 12 hours per month x 6 months).

If your organisation is contributing to the project or you have negotiated free support or items, you can itemise this and show the value alongside the description. Please show the cost to the project as £0. (e.g., 100 Volunteer Hours' worth £1,200, 1 day Hall Hire worth £200.)
