Strategic Rail Freight Interchange

Helioslough

**Proposed Strategic Rail Freight Interchange at Land in and around the Former
Aerodrome, North Orbital Road, Upper Colne Valley, Hertfordshire**

Rebuttal by Neil Findlay on STRIFE/Bill Pryce (STRIFE9/09)

1. STRIFE's documents include a proof by Mr Pryce (STRIFE9/09) which seeks clarification on the HGV generation at the site at Section 5. This rebuttal responds to this issue and supports the generation used in the application.
2. The application repeats the traffic generation which was presented at the previous Public Inquiry and accepted by both the Inspector (9/CD/8.2 paragraphs 16.73 and 16.74) and Secretary of State.
3. Both the Highways Agency (HA) and Hertfordshire County Council (HCC) accept that the traffic generation will remain the same and all the resulting traffic impact is unchanged. Consequently I do not consider that there is any requirement to examine or review again the traffic generation work and methodology that has all been agreed previously.
