**ST ALBANS DISTRICT COUNCIL TREE WORKS
APPLICATIONS REGISTERED WEEK ENDING 18/01/2018**

Reference: TP/2018/0002 TPO1077 **Ward:** St Peters

Received: 18/01/2018

Proposal: Cedar T34 (labelled T1) in rear garden - Fell to ground level.
Reason: This tree has outgrown its location, risk of future limb loss during hot summers, risk of damage and danger to the property used as B&B and occupants, inability to cordon off due to central garden location. Permission has previously been granted for further buildings on the property which are now located beneath the tree and used as lodging. The tree does not have a high amenity value with limited public views and past reduction work has caused it to grow in an unnatural shape. Removal will also allow the adjacent Tulip to grow a more balanced crown. Further crown reduction would be required to retain tree and would further reduce its amenity value. Tree can be replaced with another such as a Ginkgo Biloba or other suggested species.

**ST ALBANS DISTRICT COUNCIL TREE WORKS
APPLICATIONS REGISTERED WEEK ENDING 18/01/2018**

Reference: TP/2018/0013 CA

Ward: Verulam

Received: 11/01/2018

Proposal: Horse Chestnut (T1 on plan) - Upper crown is sparse with leaf miner present causing early browning and loss of leaf. Two large limbs on the south west side of tree, one dead and the other showing signs of dieback. Large limb on south east side extending over the neighbouring garden has a significant dead 'stripe' running from the union all the way to the end. Pollard tree to a finished height of 10-12m. Horse Chestnut (T2 on plan) - Upper crown is sparse with leaf miner present and minor deadwood throughout. Reduce crown to a finished height of 14-16m and 2.5-3m radial spread to counter the effect of the neighbouring tree being pollarded. Lift lower branches above car port. Lime (T3 on plan) - Crown is heavily suppressed by neighbouring chestnut with growth dominant over garden and toward house. Lift crown over garden to a height of 4m.
