Policy on the Selling of Fur

Only fur produced as a by-product of food consumption will be permitted to be displayed or sold at any market operated or commissioned by St Albans City and District Council.

To abide by this, a market trader must evidence the validity of the product by;

1. Providing a letter of intent on company headed paper that the Trader will abide by this rule should the trader wish to trade fur.
2. Providing a letter of certification from the Trader's supplier of the fur, that the fur has been produced as a by-product of food consumption.
3. Providing a letter of certification of the country of origin of the fur supplied to the Trader, European Union or otherwise.
