| | | | | | | TOTAL | | 16027 | | | |

Footnotes:

1. Updated table with duplicate sites removed
2. Yellow /Blue are the remaining 14 sites in land parcels scored with 0/1 significant impacts on the five green belt purposes, that have an estimated combined potential of 16,000 dwellings as noted in Para 3.11 of Helioslough Reg 19 representation
3. Blue is sites identified by SKM (unprompted) as suitable sub-sites
4. Under column G, the dark green site (620) is within Parcel 31, which was found to contain a large suitable location in the SKM report, but SADC has only retained a small section (site 621) within the draft West of London Colney broad location
5. Final notes column lists environmental / conservation designations within the SKM land parcel containing the site. In most cases, the sites fall outside of these designations
6. Sites 542 and 620 are included within the proposed SRFI Country Park (Areas 5 and 8 respectively). If these are not brought forward, the overall estimated capacity of sites in land parcels scored with 0/1 significant impacts on the five green belt purposes is 13, 143
