

Hertfordshire County Council Highways Tree felling list, October / November 2025

Updated 15/9/25

Sometimes it is necessary to remove trees that are dead, dying, diseased or have significant structural weaknesses. When the trees are felled, usually the stumps are left in-situ at about a metre high so they are clearly visible. The stumps are then ground out in the subsequent months.

Before any work starts Officer will check the tree and recommendation mark it with a cross and attach a felling notice. The contractor will also check each tree for nesting birds. If active nests are present the work will be postponed if it is safe to do so.

[FAQs](#)

Tree Number	Work order	Location	Road Name / Area	Location on road	HCC Division	SADC Ward	Species	Reason for Removal	Type of Work	Checked on Site	Work Target Month
5213	HW-2526-005 - Fells	Harpenden	Barlings Road, Harpenden	Opposite 3	Harpenden South West	Harpenden South	Sorbus aria (Whitebeam)	Additional assessment required	Planned	Cancelled	N/A
6478	HW-2526-005 - Fells	Harpenden	Lower Luton Road, Harpenden	50m west of junction with Westfield Road	Harpenden North East	Harpenden East	Crataegus monogyna (Common Hawthorn/Quick/May)	Dead Tree	Planned	Cancelled	N/A
