

PLANNING COMMENT FOR APPLICATION REF: 5/2020/3022

Louise Powell

17 York road, Watford, WD180BE

Object to Proposal

good afternoon, I am currently working for a logistics company and regularly use the north Orbital Road towards the M25.

Not only would this planning application drastically effect traffic times which also massively increases the carbon footprint for the area, it also negatively effects the green belt section which is already massively under threat. I urge the council to decline this application and think what statement this sends to the wider community if such an application was to be approved.

kind regards

Louise powell
