

Parking Development Work Programme (PENDING SCHEMES) Updated every 3 months (update Sep 2021)

The pending Work Programme is a waiting list, listed items will move to the current work programme when a space becomes available on an annual basis (Financial year April - March). Usually items will move on a first come first served basis. However, this would be agreed at the Car Parking Advisory Panel meeting prior to any change.

Star Rating Key

The star Rating is rated on the severity and urgency of the request and indicates what the priority items are:

***** High Priority Item**, to be added to current work programme as soon as work loads allow or a in the case of waiting restrictions, A TRO is being made of a similar restriction

**** Medium Priority item**. To be added to the work programme if space allows or no priority items exist on the pending list.

*** Lower Priority Item**. Improvement to parking or provides parking for specific users. To be added to the work Programme when a space on the programme allows or other works of similar restrictions in the same area can be merged

Please Note:

Each priority level takes in to consideration many factors including but not limited to; Safety, traffic flow, availability of existing parking and parking demand. The star rating is intended to assist with ensuring that all requests are dealt with fairly and consistently.

Scheme Number	Scheme Name	Location/s Affected	Ward	Restriction Types Likely	Outline and recommendations	Star Rating
