The quality and accuracy of any print will depend on your printer, your computer and its print settings. Measurements scaled from this plan may not match measurements between the same points on the ground.

1. UK Power Networks does not warrant that the information provided to you is correct. You rely upon it at your own risk. UK Power Networks does not exclude or limit its liability if it causes the death of any person or causes personal injury to a person.

2. This plan is provided to you as a guide only. It is not intended to be used as a substitute for a site visit or as a substitute for any other data or information that you may require for your own purposes. UK Power Networks does not accept any liability for any loss, damage, cost, claim, demands, or expenses that you or any third party may suffer or incur as a result of using the information provided whether for physical damage to property or for any economic loss or any other loss, including but not limited to, loss of savings, loss of goodwill, loss of business, loss of use of any or any special or consequential loss or damage whatsoever.

3. This plan has been provided to you on the basis of the terms of the order set out in the covering letter that accompanies this plan. It is provided to you on the basis of the information provided to us by you and the information provided to us by the relevant third parties. UK Power Networks does not accept any liability for any loss, damage or expense that you or any third party may suffer or incur as a result of using the information provided to you. It must not be given, sold or made available to any other person without the prior written consent of UK Power Networks.

4. Please Note: This Overview map does not display UK Power Networks electricity network and should not be used for any other purpose than the one for which it was provided. For details of the electricity network, please view the relevant page or pages of the relevant map.

5. All cables must be treated as being a service cable into each property, lamp column and street sign.

6. The information provided must be given to all people who dig near UK Power Networks plan and cables. It is your responsibility to ensure that all relevant parties are aware of the location of the cables. The use of mechanical tools or picks until the exact location of all the cables has been determined.

7. Please be aware that electric cables/lines belonging to other owners of licensed electricity supply are not shown on this plan. It is your responsibility to ensure that you are aware of the location of these cables/lines.

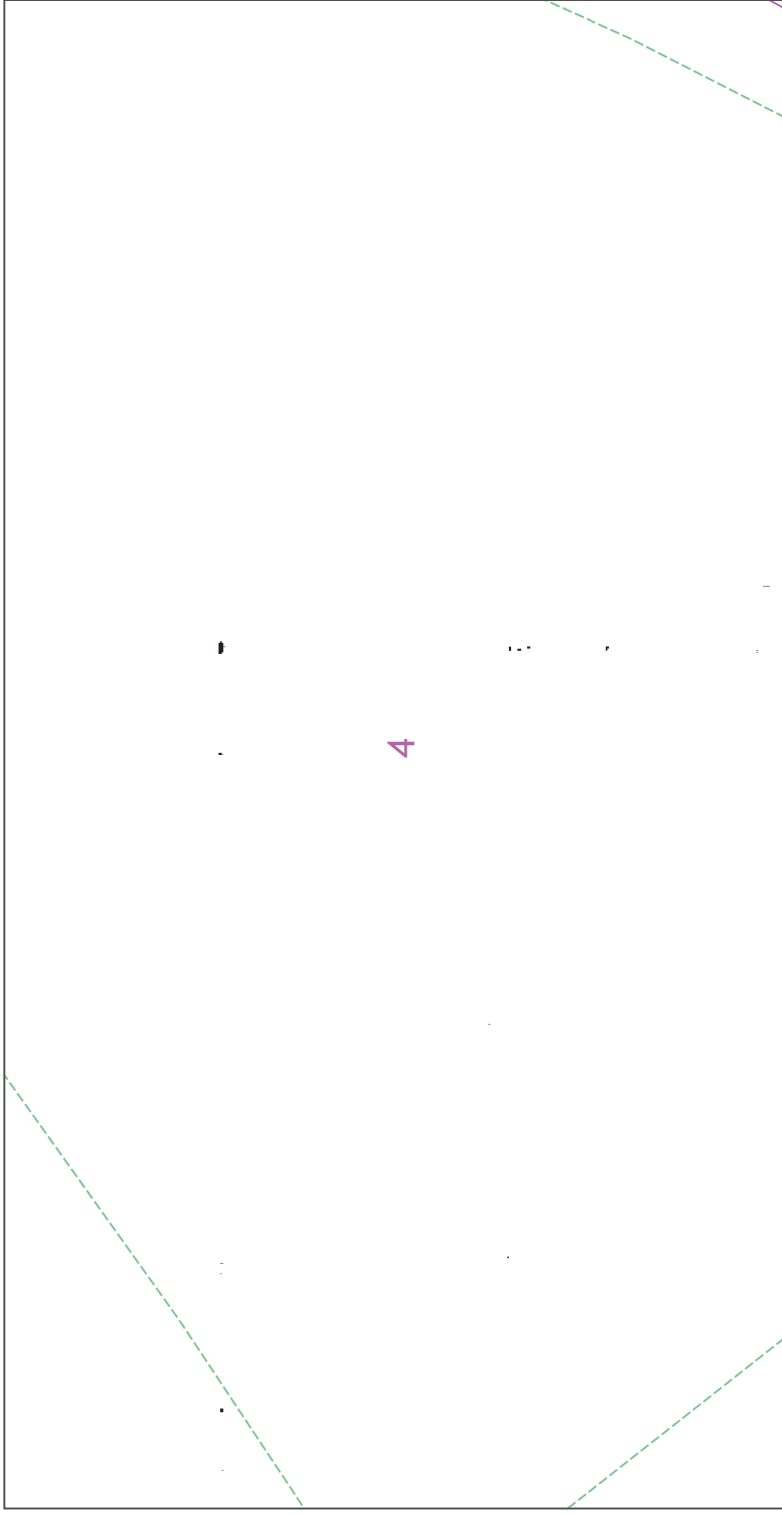

8. Please be aware the Low Voltage Overhead power lines are not currently displayed for the Eastern Region via this service; if you require records on the location of these please contact our Plan Production team directly via plans@unearthedtechnology.co.uk.

5. All cables must be treated as being live unless proved otherwise by UK Power Networks.

6. The information provided must be given to all people working on UK Power Networks plant and equipment.

7. Please be aware that electric cables/lines belonging to other owners of licensed electricity supply are not shown on this plan.

8. Please be aware the Low Voltage Overhead power lines are not currently displayed for the Eastern Region via this service; if you require records on the location of these please contact our Plan Provision team directly via plans@unearthedholdings.co.uk.

1. UK Power Networks does not warrant that the information provided to you is correct. You rely upon it at your own risk. UK Power Networks does not exclude or limit its liability if it causes the death of any person or causes personal injury to a person.

2. UK Power Networks does not accept any liability for any loss of data, damage to equipment, or any other loss or damage, whether or not caused in whole or in part by the use of mechanical tools or picks to excavation using suitable hand tools.

3. It must be assumed that there is a service cable into each property, lamp column and street sign, until the exact location of all the cables has been determined.

4. It must be assumed that there is a service cable into each property, lamp column and street sign.

5. All cables must be treated as being live unless proved otherwise by UK Power Networks.

6. The information provided to you on the basis of the terms of use set out in the covering letter that accompanies this plan and must return it to the sender of this letter.

7. Please be aware that electric cables/lines belonging to other owners of licensed electricity supply are not shown on this plan.

8. Please be aware the Low Voltage Overhead power lines are not currently displayed for the Eastern Region via this service; if you require records on the location of these please contact our Plan Provision team directly via plans@unearthedholdings.co.uk.

6. Please Note: This Overview map does not display UK Power Networks electricity network and should not be used for excavation purposes. For details of the electricity network, please view the relevant page or records to determine the location of all known underground plant and equipment.

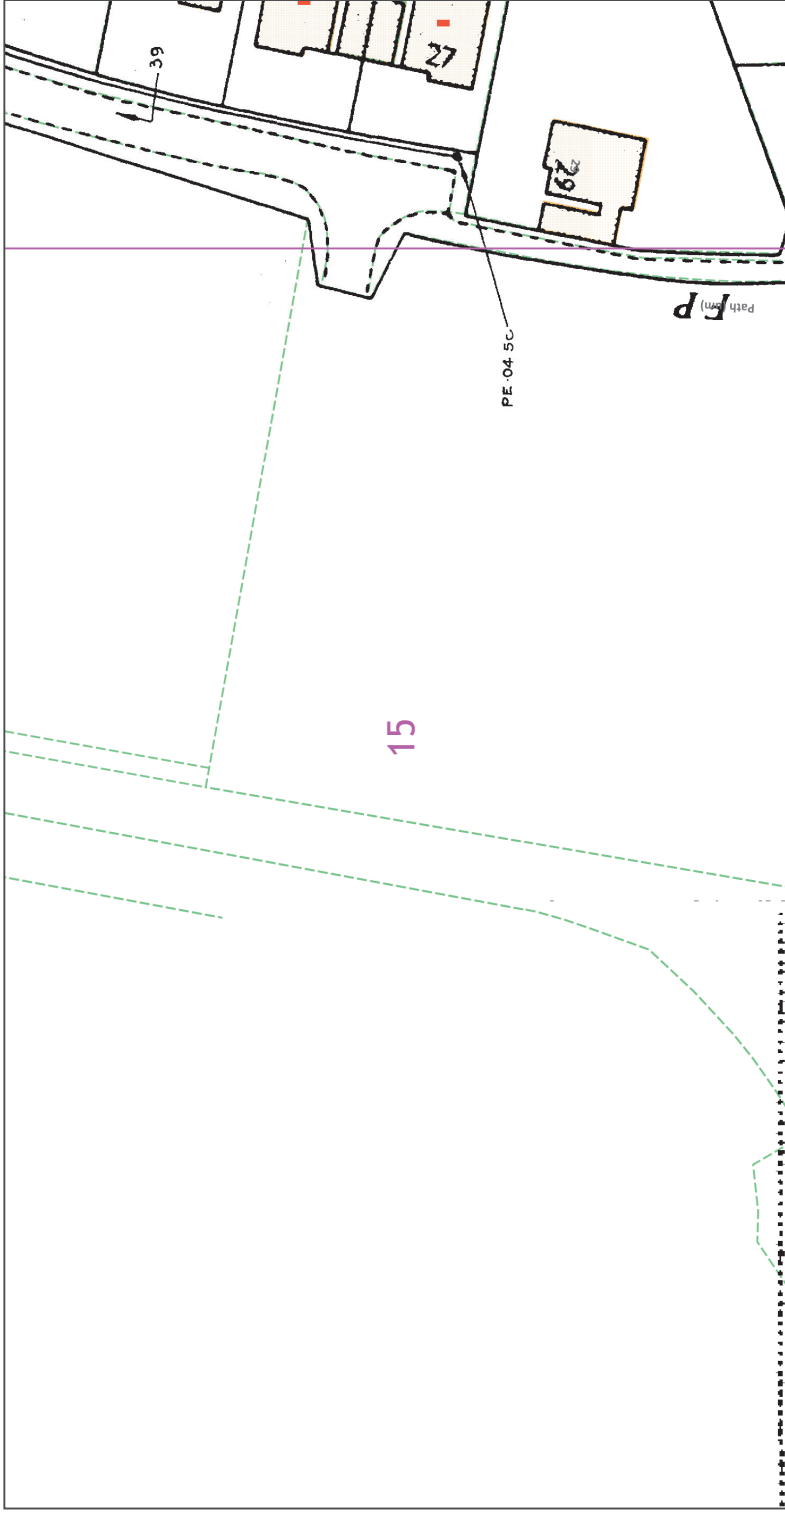

Also produced at 1:2500 scale are GeoSchematics which show LV mains cables and overhead lines (in some cases all voltages). Prior to carrying out excavations you must refer to the 1:500 records to determine the location of all known underground plant and equipment.
