**Notes:**

Housing Delivery Test: 2022 consequences are concurrent (i.e. where the buffer applies, the action plan also applies)

The local authorities: Barrow-in-Furness, Isles of Scilly and Redditch has zero final housing requirement. Therefore they do not have a Housing Delivery Test: 2022 measurement.

All results have been calculated in line with the Housing Delivery Test: 2022 measurement technical note

The final Housing Delivery Test 2022 measurement result has been rounded to the nearest 1%

Values for each authority in a joint plan being measured jointly refer to the whole joint plan area.

Recently reorganised local authorities have a choice for their Housing Delivery Test to be scored based on their predecessor authority boundaries or the new reorganised authority boundaries for the first 5 years of existence. More details are available in planning practice guidance: <https://www.gov.uk/guidance/housing-supply-and-delivery> and the Written Ministerial Statement: <https://questions-statements.parliament.uk/written-statements/detail/2021-09-06/hlws253>

For the recently reorganised local authorities, Bournemouth, Christchurch and Poole; and Dorset, the 2022 Housing Delivery Test has been published at the predecessor authority boundaries as the predecessor authorities East Dorset and Christchurch have a joint plan straddling the two new areas. This requirement cannot be disaggregated, and we have published HDT results at former boundaries. As a result, a separate data collection was provided by the local authorities to DLUHC, which disaggregated the net additional dwelling statistics for the 2020/21 year.
