

Hello,

My name is Deepak Bhat and am living with my wife and two children at xx Tollgate road. We moved in March.

We are facing lots of challenges and are facing issues :

Reversing our cars can be quite challenging due to the constant traffic congestion.

Some parked cars have been sitting there for an extended period, which can be annoying and frustrating. This adds/aggravates to traffic issues we have today in the neighbourhood.

The combination of heavy traffic and parked cars raises serious safety concerns for my child, especially since he wants to cycle to school. This worries us greatly, and we don't believe it's safe for children to cycle in this area.

The 7.33am bus, being the earliest option, doesn't allow our son enough time to catch the connecting bus to Sandringham school. Consequently, my wife or I need to commit to being available every school day to drive him to school.

The excessive speed of vehicles on our streets is a cause for concern. It's difficult to even go for a walk when safety is a constant worry.

Opening our windows isn't an option sometimes due to the high levels of noise and air pollution in the area.

Hope some positive changes are brought to the community keeping above in mind. This will be betterment for every body.

Many thanks.

Your Sincerely,

Deepak Bhat

xx, Tollgate Road, Colney Heath.
