Introduction

In August 2003, St Albans City and District Council appointed PMP to produce three inter-linked strategies covering green spaces, playing pitches and sports and recreational facilities. Together, these strategies will guide future provision and management of existing resources in the St Albans area in the context of national policy and local development criteria.

This document focuses solely upon the sport and recreation facilities strategy which will:

- analyse the current level of public, private, dual and voluntary sport and recreational provision (quality and quantity) within the district
- identify and evaluate strategic options for enhancing provision
- provide information to inform decisions and determine future development proposals in the area and feed into the Local Plan (which is currently being prepared)
- result in clear recommendations to be incorporated into a five year action plan.

Scope

Scope

- The Council recognises the provision of sport and recreational facilities is in desperate need of an independent review.
- Over the past decade, new sport and recreation facility development has been *ad hoc* with little coherent strategic vision or forward thinking.
- The Sport and Recreation Facilities Strategy will include an assessment of the following:
 - Athletics
 - Bowling greens and indoor centres
 - Community centres/village halls
 - Golf courses
 - Health and fitness gyms
 - Leisure centres
 - Netball courts
 - Outdoor water sports
 - Paddling pools
 - Racquet sports courts
 - Sports halls
 - Swimming pools
 - Wheeled sports parks (e.g. BMX biking etc)

Scope (cont.)

For each of the facility types, our final strategy will provide answers to the following questions:

- What have you got?
- What do others provide?
- What is the quality of the provision?
- Where are the gaps in provision?
- What needs to be done and what are the priorities?
- Where should resources be targeted?

Methodology

Methodology

The strategy is being developed using the following methods:

Method	Supply Analysis	Demand Analysis
Desk Research	Provides information relating to provision and quality of existing facility provision.	Council, clubs, governing bodies etc. Provides information relating to demand/need for existing/additional facilities.
Consultation (internal and external)	Provides information on the range and quality of facilities provided.	Provides feedback on facility needs/demands based on work with local clubs/providers/other stakeholder groups.
Club Survey (inc. postal survey and follow-up telephone survey)	Identifies facilities currently used and quality of provision.	Provides feedback on priorities for improvements to existing facilities and additional facility needs which exist.
School Survey	Identifies facilities currently provided/used and feedback on quality of provision.	Provides feedback on priorities for improvements to existing facilities and additional facility needs which exist.
Facility audit / research (inc. site visits and telephone consultations)	Detail of level and quality of existing facility provision.	Provides information regarding priorities for improvement / redevelopment.
Demand modelling	Provides context for facility audit	Indicates shortfalls / surpluses of major sports facilities.
Demographic analysis	Provides context for facility audit	Defines the potential leisure market.

Methodology (2)

Consultation

Internal and external consultation meetings:

- Leisure
- Sports development
- Planning
- Leisure Connections Ltd
- County Council Officers
- National governing bodies
- Facility managers

Club Survey:

- questionnaires to 127 sports clubs covering 17 separate sports

Schools Survey:

- Questionnaires to 76 schools, 8 replies so far
- Non respondents are now being followed up

Methodology (3)

Facility audit

Sport and Recreational facilities were identified using the following data sources:

- PMP internal databases
- Sport England directories
- Existing Council reports
- Online directory
- Thomweb
- Commercial operator websites
- Information provided by national governing bodies
- www.upmystreet.com
- www.yell.com
- www.swimmersguide.com
- www.runtrack.dir
- www.health-club.net
- www.thefitmap.co.uk
- www.gymuser.co.uk

National Context

National Context: Game Plan

Long term vision

“by 2020 to increase significantly levels of sport and physical activity, particularly among disadvantaged groups, and to achieve sustained levels of success in international competition”

Aims:

- Encourage mass participation culture 70% of population active (currently 30%)
- Enhance international success
- Adopt a different approach to hosting mega sporting events

Focus:

- Young people and health
- Major investment in grass roots sport targeted through – Physical Education, School Sport and Club Links Strategy (PESSCL)
- Priority areas
- Partnership working – LSP, PCT etc

DFeS – focus on

- Schools as a community resource
- ‘lifelong learning’
- Extended schools programme

Over £2bn Govt and Lottery money going into sport in next 3 years

The National Context

- Despite the explosion of local authority provision during the 1970's and recent private health and fitness boom, participation has remained static at about 33% of the adult population
- Budgetary pressures through increased pressure on local authority budgets and ageing stock of facilities expensive to maintain while not suited to meet needs of new activities and participants
- New and innovative solutions required
 - Multi sport facilities (e.g. 5-a-side, indoor tennis, skate boarding, swimming pool, crèche, internet café, local resource centre)
 - Connections with health, education, community development and youth
- Success should be evaluated against:
 - Impact on participation
 - Cost / benefit
 - Fit with objectives such as reduced crime, social cohesion etc

What does it mean for St Albans?

- Increasing focus on the role of schools both nationally and locally
- What future for the traditional Leisure Centre Service....?
- How do Leisure Centres play a part
- Innovative refurbishment solutions required through wider partnerships
- Increasing focus on priority neighbourhoods both nationally and locally
- Need for inter-dependent network of local facilities that work locally
- Target the most needy – subsidies for economically disadvantaged adults

Local Context

Local context – policy framework

Council's emerging aims:

- Acting as a voice for and meeting the needs of the whole community, working closely with other organisations
- Protect and enhance the environment and heritage and create a safer environment
- Improve the health and well-being of residents and maximise opportunities for them to access decent, secure and affordable housing
- Provide quality leisure, arts and heritage opportunities for residents and visitors
- Support and promote a thriving and sustainable local economy which is supported by an easily accessible integrated transport system and infrastructure

Local context – policy framework

Previous strategies:

- Leisure Strategy 1995
- Leisure Needs Survey of 11-18 year olds 1999
- Key Recommendations:
 - Council to take on an active enabling role
 - Build links with other agencies
 - Provision for young people a priority
 - Use Section 106 agreements
 - Provide a sports hall at Westminster Lodge
 - Websites and information for young people
 - Leisure boards in schools
 - Outreach presentations
 - Taster courses
 - Summer circular bus route
 - Youth Forum
 - Young People Development Officer

Local context – policy framework

Issues raised to date..for discussion

- A lack of consistent objectives to drive decision making?
- Opportunities with developers not being taken (no SPG on Section 106s)
- Individual sections make own policy without reference to Corporate / service-wide aims?
- Council's partners and key users are unaware of policy

Local context – leisure management contract

The current contract for the management of the leisure centres in St Albans is due to expire in November 2004. A Leisure Management Procurement Working Party has been established and are currently considering the revised specification for leisure services. The issues the working party have been examining are:

- Sustainability – including transport to leisure centres
- Excellence – what role should the Council have in relation to talented athletes?
- Participation – should resources be targeted to certain groups?
- Delivery – the balance between facilities and outreach
- Quality level – meeting higher expectations
- Programming – should the Council be prescriptive?
- Access – considering lower participation groups
- Special events – what role does the Council / should it have?
- Information technology – how IT can assist with planning and management information?

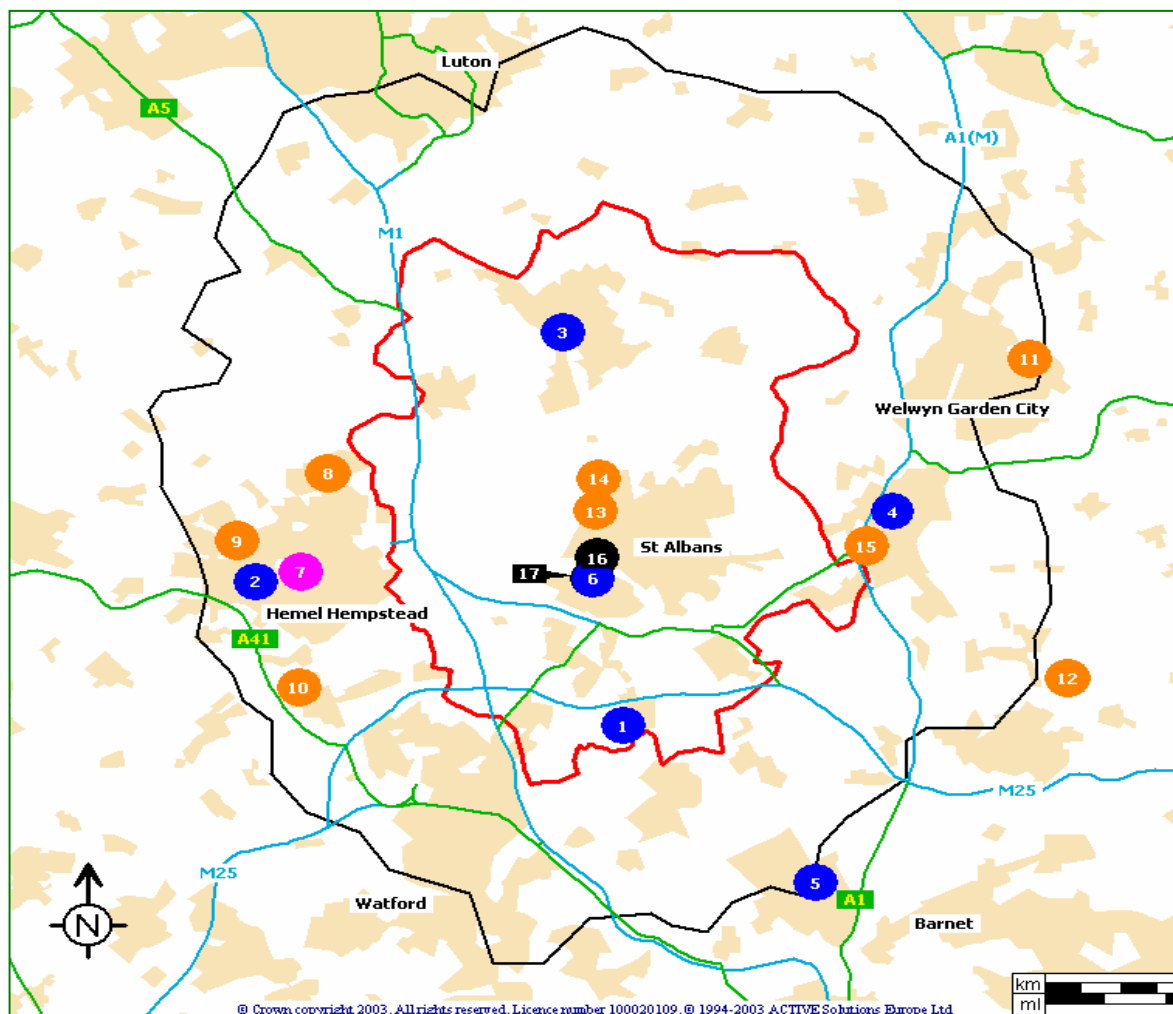

Local Context: Demographic analysis

Size and composition of the local leisure market: (headline 2001 data)

Demographic indicator	Impact on facility usage
The total district population is 129,005. This population has grown by 2.2% since the 1991 census	There is a large potential user base for leisure facilities within the district
The proportion of people aged below 25 is below the national average, however there is a larger proportion of middle -aged people	Young people have a high propensity to participate in sport and leisure activities.
Unemployment is below the national average at only 1.7% compared to 3.4% nationally	People with large amounts of disposable income have the propensity to participate in sport and leisure: an opportunity for St Albans and a challenge to also provide for those on lower incomes
Only 14.8% of households do not have a car compared to 26.8% nationally and 42.8% of households have access to two or more cars	Although mobility is good within the district, there are a number of households who do not have access to a car and therefore good public transport links need to be maintained.
Only 30.7% of the population have no interest in sport compared to 35.4% nationally	The population of the district has a high propensity to participate, and it will therefore be important to ensure that facilities are able to cater for this high demand.

Swimming - issues

Swimming pool provision in St Albans City and District and surrounding area

Key:

— St Albans District Boundary

— 5km Buffer Boundary

● Public Facilities

● Private Facilities

● School Facilities

● Planned Facilities

ID Name

- 1 Bricket Wood Sports Centre
- 2 Dacorum Sports Centre (Hemel Hempstead)
- 3 Harpenden Sports Centre
- 4 Hatfield Swim Centre
- 5 Hertsmere Centre Pool
- 6 Westminster Lodge Leisure Centre
- 7 Leisure World
- 8 Astley Cooper School
- 9 Cavendish School
- 10 Kings Langley School
- 11 Monks Walk School Pool
- 12 Queenswood School
- 13 Sandringham School Swimming Pool
- 14 Townsend School Pool
- 15 University of Hertfordshire
- 16 St Albans School
- 17 Westminster Lodge (planned)

Swimming – issues

Potential oversupply of inappropriate water space?

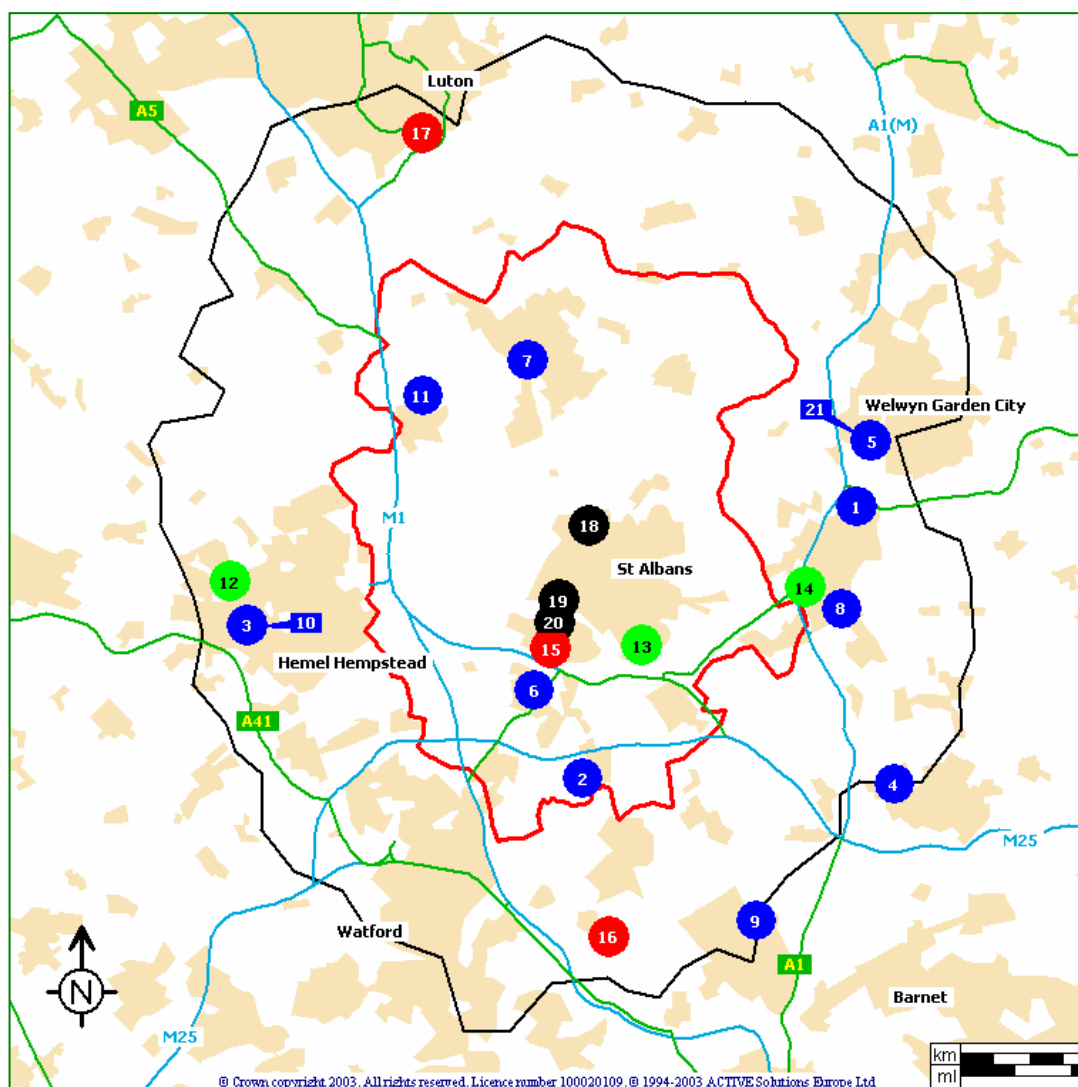

- 3 public pools
- 2 school pools (Sandringham and Townsend) with reduced public access
- Planned pool at St Albans School - public use unclear
- Sport England Facility Planning Model indicates NO additional need for swimming provision in Hertfordshire
- The Amateur Swimming Association facility strategy does not include Hertfordshire as a priority

BUT...

- No appropriate competitive swimming venue (25m x 8m)
- Quality of existing venues is poor
- FPM and other models are based on **existing** participation data, not projected data if targets are met

Sports halls - issues

Sports hall provision in St Albans City and District and surrounding area

Key:

— St Albans District Boundary

— 5km Buffer Boundary

● Public Facilities

● Dual-Use Facilities

● Club-Use Facilities

● Planned Facilities

ID Name

- 1 Birchwood Sports & Community Centre
- 2 Bricket Wood Sports Centre
- 3 Dacorum Sports Centre
- 4 Furzefield Centre
- 5 Gosling Sports Park
- 6 Greenwood Park
- 7 Harpenden Sports Centre
- 8 Hatfield Leisure Centre

- 14 University of Herts Sports Centre
- 15 Marlborough School
- 16 Aldenham Sports Centre
- 17 Vauxhall Recreation Club
- 18 St Albans Girls School
- 19 St Albans School
- 20 Westminster Lodge
- 21 Gosling Sports Park

Sports halls – issues

Potential undersupply?

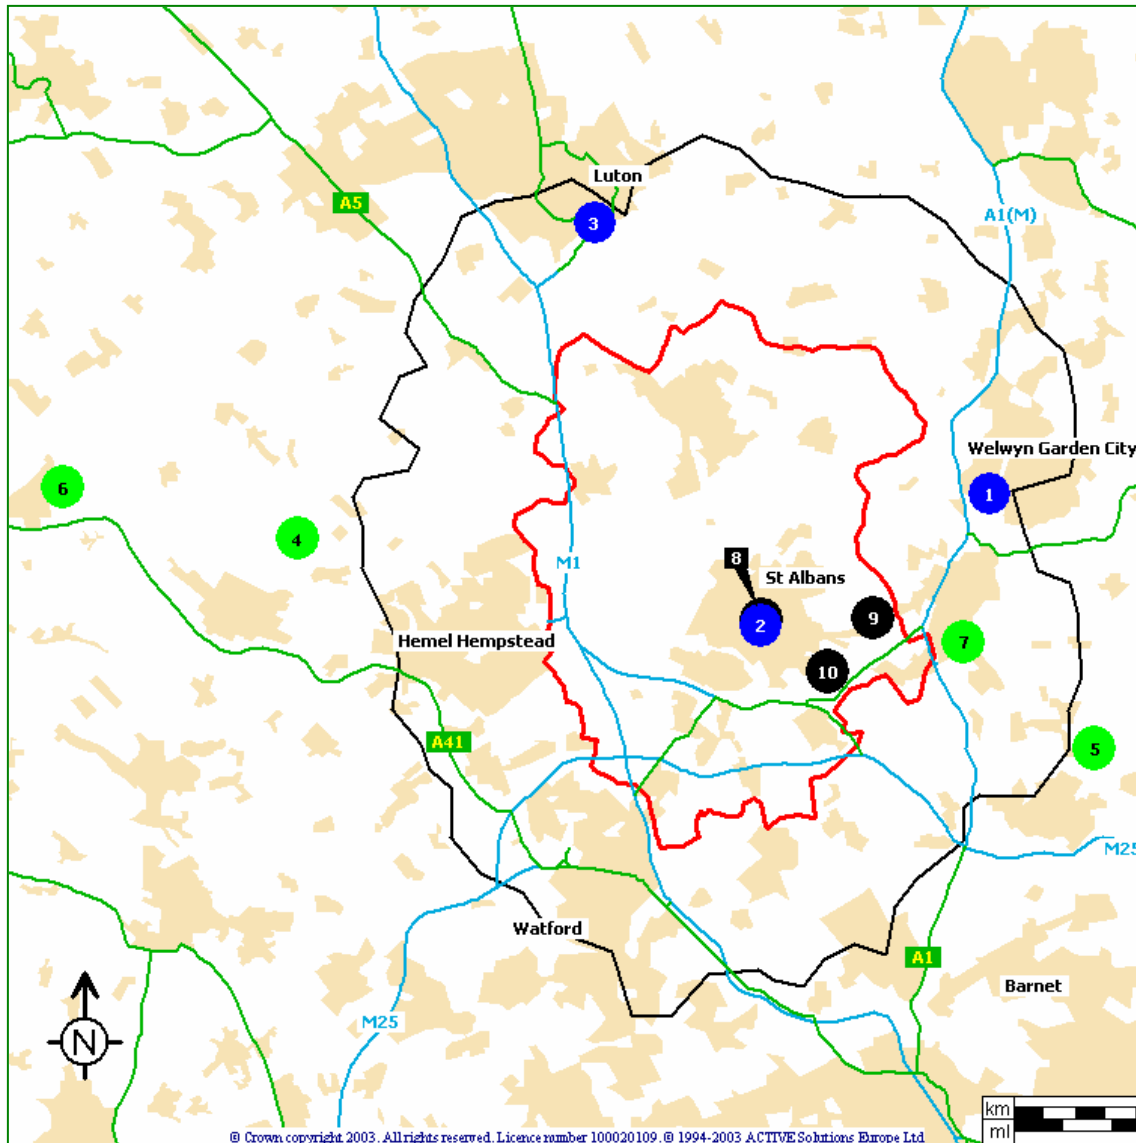

- Demand modelling indicates undersupply of indoor sports halls (equivalent to 8 courts)
- Sports halls at Bricketwood, Harpenden and Redbourne (not standard size)
- Francis Baron School hall is dual use, reduced public access
- 2 planned facilities, at St Albans School and St Albans Girls School
- If these facilities are developed, undersupply will be reduced to 3 courts (**excluding** re-development at Westminster Lodge)

BUT

- Need to consider future participation rates (these models do not)
- Need to consider local needs
- Need to consider those people who are not attracted to traditional sport / sports halls... more local, health based recreational provision (smaller halls?)

Synthetic Turf Pitches – issues

STP provision in St Albans City and District and surrounding area

ID Name

- 1 Gosling Sports Park
- 2 The Pavillion
- 3 Vauxhall Recreation Club
- 4 Cavendish School
- 5 Queenswood School
- 6 Tring School/Sports Centre
- 7 University of Hertfordshire
- 8 Clarence Park
- 9 Harvesters Football Club
- 10 Highfield Park

Key:

- St Albans District Boundary
- 5km Buffer Boundary
- Public Facilities
- Dual Facilities
- Planned Facilities

Synthetic Turf Pitches – issues

- Demand modelling indicates undersupply of 1.2 pitches
- Only one STP at present, a public facility
- 2 further pitches planned, at Highfield Park and Harvesters Football Club (*now built and opening imminent*)
- Replacement surface is planned for Clarence Park pitch

BUT...

- Need to consider smaller areas for 5 a side and school / recreational use
- Need to consider links to local community facilities or leisure centres for economies of scale

Supply and Demand - swimming

Scenario – swimming pools	Under/ Over Supply
Present situation (2000)	Over supply of 658 sq m
Worst Case Scenario (2005)	Over supply of 796 sq m
Most likely Scenario (2005)	Over supply of 608 sq m

Supply and demand – sports halls

Scenario – Sports halls	Under/ Over Supply
Present situation (2000)	Under supply of 8 courts
Worst Case Scenario (2005)	Under supply of 3 courts
Most likely Scenario (2005)	Under supply of 9 courts

Consultation – Sports Clubs

Shortfall of appropriate netball provision?

- There are no facilities that meet the minimum standard specification (four courts) for adult and youth leagues. The lack of a suitable competition venue for Hertfordshire Netball Association is restricting the overall development of the sport in district.
- The netball clubs also raised the need for training provision – there is a perceived lack of floodlit outdoor courts or difficulties with accessing court time at the sports hall sites.

View of sports clubs - miscellaneous

- 62% of responding clubs rated the provision of sport and leisure facilities in St Albans as average
- 12% of clubs rated provision as good
- 25% considered facilities to be poor.
- Several clubs indicated that their current facilities meet the needs of their club
- Many suggested that additional provision is required within St Albans City and District
- Almost all respondents indicated that there is a need for further indoor sports halls and multi purpose halls.
- Clubs feel St Albans is considered to be deficient in indoor bowling facilities and good quality multi use games areas (MUGAs)
- The Westminster Lodge site was identified as the preferred location for new sport and leisure facilities within St Albans District.

Facility Appraisal

London Colney - issues

- The Adventure World has a unusual mix of facilities which are largely junior focused (soft play area and day-care centre)
- A small health and fitness suite and a hall for classes (although this is not fit for purpose) but not racquet sports. The facility is tired and in a poor state of repair
- The outdoor courts (for basketball, netball and tennis) are relatively new but not used to full potential
- Development of the courts is restricted by a lack of floodlights
- Need for user survey to analyse catchment and value?

Bricketwood Leisure Centre - issues

- Bricketwood Leisure Centre is located away from large population centres in the south of the district, half way between St Albans City and Watford. It has a small base of regular customers, many of whom come from Watford
- All signage has the HSBC branding with no Council or Leisure Connections identity. The entrance to the site is unclear and is easily confused with the HSBC facilities
- The centre is also in poor state of repair, particular issues include:
 - changing rooms used for wet and dry activities
 - pool is incorrect dimensions for competitive swimming (23 metres)
 - fitness gym is small and stocked with old equipment
- However, the sites biggest asset is the eight court sports hall with 1000 spectator seats which can host elite regional and national competitions (e.g. Basketball; Netball; Tae Kwon Do)

Batchwood Golf & Tennis Centre - issues

- The site is perceived by Lawn Tennis Association as one of the top 3 centres in England for development work. A variety of courses are held providing for the full spectrum (from 2 ½ year olds to elite level performers)
- The planned bubble development will help the Centre maintain its status as a regional centre for excellence. Any further development of the site is unlikely due to its location in a conservation area
- The golf course is managed by Batchwood Golf Club and is well-used, although there are some issues regarding the maintenance of the course (maintained by Leisure Connection)
- Site could be improved by developing the entrance area and re-locating the bar

Harpenden Sports Centre and Swimming Pool - issues

- The swimming pool and health and fitness facilities at Harpenden are regarded as the best public provision in the district. In addition, although the sports hall facility is tired, it is well-used throughout the day.
- Ideally, the facilities would all be provided under one roof, however, given that this cannot be rectified, other facility issues include:
 - Investment required in tennis courts
 - Maintenance, staffing and cost / benefit of the paddling pool

Westminster Lodge Leisure Centre

- issues

- Although the Centre has a well-used pool with excellent programming and well-respected fitness classes, there are many issues with the current facilities which are tired and in poor state of repair:
 - poor maintenance and décor
 - paddling pool/ athletic track location away from main centre
- Plans for re-provision of Westminster Lodge need to take account of developing strategic themes – appropriate provision, in the right area, responsive to local need, designed to attract traditional non-participants, targeted provision

Emerging Themes...for discussion

- Service not currently meeting Council corporate objectives
- Service not sustainable in current form - *do nothing is not an option*
- Significant capital needs to be found – revenue position not sustainable
- New forms of partnership between leisure centres, schools and sports development
- Access and pricing to sports halls seen as key
- New ways of allocating resources internally in the Council
- Potential to increase income and reduce expenditure
- Need to explore potential for partnership working
- Opportunities and potential to rationalise provision and re-invest / re-provide through sale of assets
- Minimal impact on meeting council and national agendas
- Opportunity to re-shape service and provide facilities more in line with community needs
- Potential of new school facilities significant – including sports facility provision

The Challenge and Vision

Challenges...for discussion

- Response to Game Plan
- Community facilities at local level
- A new solution to raising participation
- Pay and play opportunities
- Understanding local communities

A new vision.. for discussion

- A partnership approach
- A hierarchy of provision (flagship → specialist → community sports centre → shared use centre → outdoor recreation → mobile / outreach)
- Links to social, education, health objectives and needs
- Raising participation amongst traditionally non-active groups

APPENDIX C

HOUSEHOLD QUESTIONNAIRE

St Albans City & District Green Spaces & Sport Facilities Study

SECTION ONE - GENERAL

When answering the questions in this section please relate to your local area as shown on the map enclosed.

Importance

Q1 Please tell us HOW IMPORTANT each of the following types of open space are to you:

	<i>Important</i>	<i>Not important</i>	<i>No opinion</i>
District parks (eg Verulamium Park, Rothamsted Park)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Local parks (eg Clarence Park, Highfield Park)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
