

**VALIDATION CHECKLIST – OUTLINE PLANNING APPLICATION WITH SOME MATTERS RESERVED**

The following information (on both the national and local list of requirements) in the validation checklist must be submitted with your application for it to be accepted as valid and for consideration of your application to begin. We encourage you to submit all applications online via the Planning Portal. However, if you choose to post, please provide 2 copies of hard documents or 1 copy of hard documents and a CD with plans no larger than A3 and to scale. If any of the required information is not submitted with your application, you should submit written justification as to why you consider it is not appropriate in the particular circumstances of your proposed development.

Air Quality Impact Assessment	An assessment of potential impacts of the development on local air quality should be provided which should outline the proposed mitigation measures where necessary. For sensitive uses within the AQMA, proposed mitigation measures only would normally be required.	This information is required for an application which proposes a use or development which has the potential to impact air quality and is located within an Air Quality Management Area or if the proposal is for a sensitive use (e.g. a new residential use) located within the AQMA.
